unbite account with assurances that the

able news in general, although the
highish stock remained considerable in
xeess of a year ago.

Our market opened steady at an adance of 274 points and further adance of 275 phoalts and further adanced 275. The general firmness here
tas increased by hocal covering on a
onsiderable scale, with general specuutive interest also more thoroughly
roused than for some time past.
Yeather and crop accounts, while more
r less conflicting, had a berrish averge and finally arrested the upward
